

CompuCom Enterprise Solutions: Windows 7 Migration Accelerator

This Migration Accelerator provides an overview of the key concepts to keep in mind when you consider a migration to Windows 7. This five-day engagement is conducted onsite and covers a combination of architectural design, technical whiteboard sessions and interactive hands-on, deep-dive demonstrations of recommended tools and methods. A key focus is the assessment and planning area.

Engagement Goals

The Readiness Review helps you understand:

- ▶ What to expect and what to do next
- ▶ How to collect the data required for any OS Migration plan
- ▶ Tools available to facilitate an OS Migration
- ▶ Readiness status of your current environment for a Windows 7 migration

GetStarted Activities

The GetStarted program is designed to do exactly what it says — help you quickly GetStarted with reaching your infrastructure optimization goals through a successful series of steps to move to Windows 7 in your environment. Key activities include:

Activity	Description
Engagement Kickoff	<ul style="list-style-type: none"> ▶ Introduce the CompuCom and client team, roles, and responsibilities ▶ Describe the project goals and deliverables, and validate expectations
Architectural Review	Whiteboard sessions to review the current environment, discussions of related technical issues and potential solutions, and development of suggestions and recommendations for the migration process to a Windows 7 environment
Best Practice Discussions	Interactive discussions on migration best practices and how they fit and impact a comprehensive migration plan
Software Rationalization Review	Discussion and review of best practices and approaches. Review of the steps required to identify what you have, who owns it, and who uses it. The focus is on reducing the total number of applications necessary for migration, testing and remediation
Discovery and Data Review	Discussions on establishing an approach for collecting all necessary data for a comprehensive migration, leveraging what you already have, and providing analysis and recommendations to meet additional needs
Tools Review	Interactive demonstrations of recommended tools and processes for the purpose of facilitating guided tours, discussions, and knowledge transfer including what the data really means and next steps <ul style="list-style-type: none"> ▶ Demonstrate Microsoft Application Compatibility Toolkit (ACT) on as test server along with up to five representative client systems ▶ Demonstrate Microsoft Assessment and Planning Toolkit (MAP) for hardware and software readiness ▶ Demonstrate Microsoft Office Migration Planning Manager (OMPM) for migrating Office documents
Project Wrap-up	Final presentation to provide engagement results and recommendations to project stakeholders

Service Summary

Expert CompuCom OS migration consultants work with you to assess your readiness to deploy Windows 7 and review key concepts, techniques, and tools to help you put a comprehensive migration plan in place.
